Comfortable for patient  Color coded sizes  Oxygen Adapter
Neotech RAM Cannula
Nasal Oxygen Cannula

INDICATIONS FOR USE
The Neotech RAM Cannula is intended to be used in the administration of oxygen through the nares to pediatric (neonates, infants and children) patients.

DIRECTIONS FOR USE

Step 1
Select proper size cannula to fit patient.
Ideal prongs size will fill 60-80% of nares.
Note: Ensure that prongs do not fill nares completely.

Step 2
Attach 15 mm oxygen tubing adapter (provided) to RAM cannula. Attach cannula to oxygen source.
Note: Ensure all cannula connections are properly secured.

Step 3
Begin gas flow.

Step 4
Insert prongs into patient’s nares.
Note: Allow small gap between patient’s septum and base of prongs.

Step 5
Secure cannula to face with EZ-Hold® Tubing and Cannula Holder or comparable product.

Step 6
Replace Neotech RAM Cannula every 14 days or per hospital protocol, whichever is sooner.

GENERAL INFORMATION

Product Materials
Cannula tube: PVC
Cannula prongs: PVC
15mm adapter: PVC
O-ring: Silicone
Oxygen adapter: Acrylic
Made with natural rubber latex: No
Made with plasticizer DEHP: No

Size
N4900 Micro Preemie
Nasal prongs septal space: 2.5 mm
Nasal prongs outer diameter: 3 mm
N4901 Preemie
Nasal prongs septal space: 4.2 mm
Nasal prongs outer diameter: 3 mm
N4902 Newborn
Nasal prongs septal space: 4.8 mm
Nasal prongs outer diameter: 3.5 mm
N4903 Infant
Nasal prongs septal space: 5 mm
Nasal prongs outer diameter: 4 mm
N4904 Small
Nasal prongs septal space: 5.75 mm
Nasal prongs outer diameter: 5.25 mm
N4905 Medium
Nasal prongs septal space: 6.75 mm
Nasal prongs outer diameter: 5.75 mm
N4906 Large
Nasal prongs septal space: 7.75 mm
Nasal prongs outer diameter: 6.5 mm

Packaging
Individually packaged: Yes
Package type: Polyethylene bag
Dispenser box: Yes
Visit neotechproducts.com for the most up-to-date information.
Polyethylene bags are biodegradable. Boxes are printed with environmentally friendly soy ink on recyclable material.

CONTRAINDICATIONS, CAUTIONS & WARNINGS
The Neotech RAM Cannula is contraindicated for patients with nasal atresia or patients with facial structure deformities that prohibit adequate respiratory support.
Federal law restricts this device to sale by or on the order of a physician.
Improper selection of size, improper positioning or improper use may result in septal trauma or necrosis.
Always begin gas flow prior to inserting prongs into patient’s nares.
Frequent observation of prongs position in patient’s nares may be necessary.
Cannula tubing can pose a potential strangulation hazard.
Do not use if package is damaged or open.
Do not soak, wash or sterilize.
Discontinue immediately if skin irritation occurs.
Single patient use only.
