Little Sucker® and Little Sucker Cover®

ORAL & NASAL SUCTION DEVICE AND PROTECTIVE COVER

INDICATIONS FOR USE

The Little Sucker is indicated for use as a tip for suction tubing to aspirate fluids from the mouth and nares.

The Little Sucker Cover is indicated for use to protect the Little Sucker.

DIRECTIONS FOR USE

1. If cover in place (applies to N204C, N204CH, N205C, N205CH), unplug thumb port and slide suction tip out of cover.
2. Connect barbed end of suction tip to suction line.
3. Set suction to appropriate pressure per hospital protocol or physician recommendation.
4. Block thumb port with thumb to begin suctioning.
5. Suction mouth or nares with intermittent suctioning. Remove thumb from thumb port to stop suctioning. Block thumb port again to continue suctioning.
6. Suction sterile water through suction tip after each use to clear debris.
7. If applicable, reinsert suction tip into cover and insert port plug of cover into thumb port of suction tip.
8. Replace suction tip/cover every 24 hours or per hospital protocol, whichever is sooner.
