

# *We're Taking Names...*

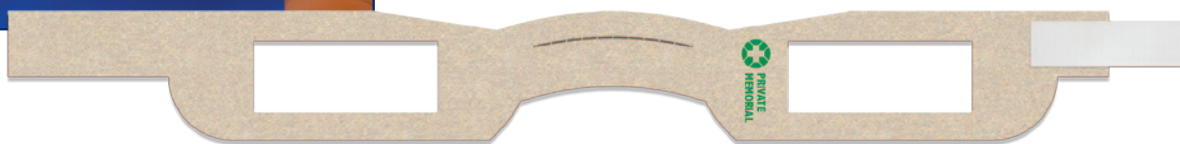

## ...And Putting Them on Our Products!

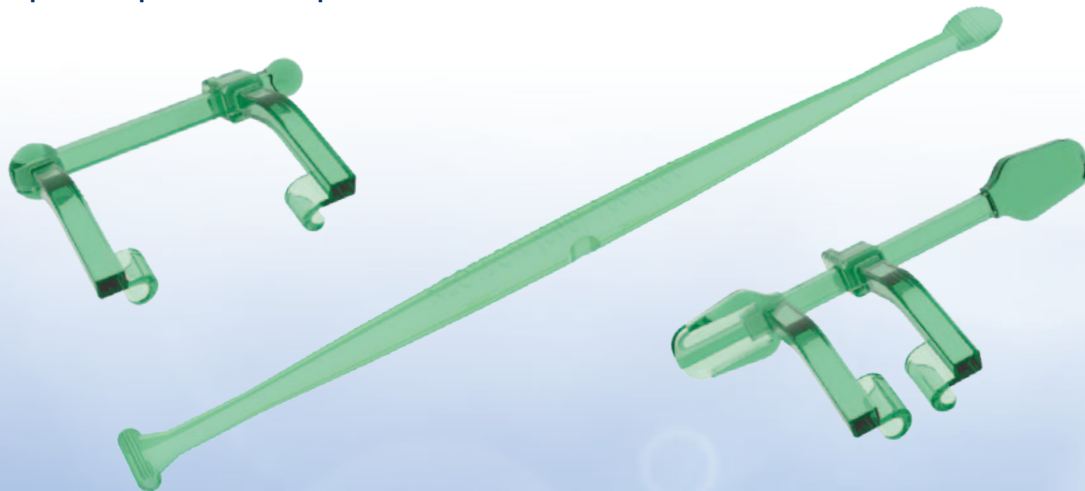

Neotech Products has 30 years of solid product performance and recognition. Our team of experts can assist you in the process of adding your company logo and reorder info to many of our products. Our Private Label program allows you to fast track new company-branded products to your customer base while avoiding lengthy and expensive product development costs. Leverage the Neotech Products development process to bring quality products to market under your company name.

Neotech Products can also bring your OEM product ideas to life by providing insight, engineering and prototyping services. We will work with your product development team to customize a Neotech device to your specs for a truly original product.
