Neotech Home Health

NeoShades® with Tabs

Phototherapy Eye Shields

Features & Benefits

- Soft, padded eye shield material with cute sunglasses design
- Ocular pockets designed for patient comfort and safety (N724, N725, N726)

See More

NeoShades with Tabs from Neotech are made of a soft, gentle fabric that strives to provide the best in patient comfort. The most outstanding feature of this product is the tabs that hold it in place. A gentle hydrocolloid adhesive attaches the tabs to the patient's temples; these tabs then attach to the NeoShades via low-noise hook fabric that is unlikely to disturb the patient when the NeoShades need to be adjusted. The cute sunglasses design adds a touch of fun.

NeoShades® with Tabs

Phototherapy Eye Shields

Directions for Use

Preparation

Step 1 Select proper size.

Step 2 Clean and dry skin per hospital protocol.

Note: It is important for skin to be as clean and dry as possible. Tabs will not adhere properly to moist skin or hair. Oils and lotions will adversely affect adhesion.

DO NOT USE ALCOHOL.

Application

Step 1 Before removing liners, carefully remove tabs from NeoShades and warm tabs in hands for 60 seconds. May also be held under radiant or heel warmer for 10 to 15 seconds.

Step 2 Peel and discard liners. Place tabs on skin and hold in place for 60 seconds to ensure proper adhesion.

Clinical Training

Neotech employs an experienced team of licensed Clinical Consultants who work with hospitals providing educational support and in-service training.

Our highly specialized team is located throughout the United States. Their expertise in the neonatal, pediatric and respiratory fields is employed to provide you with the safe and proper use of our products.

Clinical Consultants can provide onsite in-service training for your staff including night and weekend shifts. Our Clinical Consultants are also available to assist our distributor reps.

If you are interested in on-site training within the continental United States, please complete and submit the form.

If your are located in Hawaii, Alaska or a different country please call 1-800-966-0500.

New Idea Submission

For 30 years, Neotech has taken pride in bringing cutting-edge products to market.

Like many medical professionals, our medical director and co-founder, Dr. Arnold Heyman, developed many products during his years of practice with varying success. As a result, we vowed to treat all inventors fairly and with respect.

At Neotech, we assist inventors with product development, and we're easy to work with. We pride ourselves on building positive working relationships and steadily moving through the process, all at no cost to you. We know you'll take satisfaction in knowing that you've made a difference in the lives of clinicians and patients.

Find out for yourself how easy we are to work with. If you have an idea you'd like to discuss, submit your contact information to get started. We'll respond quickly with some additional info and a product submission form.

Private Label/OEM

Neotech's Private Label program allows you to fast track new company branded products to your customer base while avoiding lengthy and expensive development costs. Leverage our existing products and our development process to bring quality products to market under your company name.

We can also customize a product for your needs. Neotech Products' OEM team can bring your product ideas to life by providing insight, engineering and prototyping services. We will work with your product development team to customize a Neotech device to your specifications for a truly original product.

Interested? Complete the form to get started and our specialist will contact you soon.
